

# CONCIERTO ENOLÓGICO

## *Winery*

A PLACE WHERE MUSIC IS PAIRED WITH OUR 100% MEXICAN WINES.

Is a family-owned Mexican winery founded in 2013 by Luis Sarabia and his family, based in Valle de Guadalupe, Baja California. Its name is inspired by the sounds of the vineyard at dawn, which resemble a concert—reflecting the idea that wine is a harmonious composition between the elements of the land and the winemaking process. The winery aims to offer high-quality experiences and a space to enjoy both wine and the surrounding landscape.

At our winery, we vinify exclusively in stainless steel tanks and use different types of barrels for aging our wines. This is where we carefully preserve and refine all the work that has been done in the vineyard throughout the year.

Although our winery is small, we strive to use cutting-edge technology. For example, the temperature of all our tanks is controlled by a central system. In addition to this, we follow more than 50 processes and procedures to ensure that our final product is of the highest quality.
