## *Winery*

### A FAMILY WINERY

Mina Penélope is a small yet "great" family winery located in San Antonio de las Minas, in the Valle de Guadalupe, Baja California, Mexico. Founded in 2014 by Verónica Santiago and her husband Nathan Malagón, the winery produces high-quality artisanal wines, combining organic and sustainable farming practices with minimal intervention in the winery, to nourish the soils and create a harmonious environment with the surroundings. This sustainable approach is reflected in the quality and authenticity of their wines.

Verónica, an oenologist with studies in Australia, applies her knowledge at Mina Penélope, creating elegant, delicate, and expressive wines, with a subtle use of oak that complements without overshadowing the fruit.

The winery offers a variety of red, white, and rosé wines. Its iconic wine, "Julio 14," is a blend of Syrah, Grenache, and Mourvèdre. Also notable are their orange wine made from Sauvignon Blanc and their recent creation, "Tejedora," a dry sparkling wine made from Aglianico grapes.
