

VENA CAVA

Winery

The love for nature, the reuse of materials, and sustainability in the activities that Phil and Eileen Gregory develop at La Villa del Valle are a personal vision and lifestyle they enjoy sharing with their visitors.

Vena Cava was founded in 2005 as part of the offerings of the La Villa del Valle Group, a project that the owners Phil and Eileen Gregory enjoy sharing with visitors and friends.

The winery is located in the heart of the Valle de Guadalupe, surrounded by an imposing mountainous landscape. In this region, the soil is rich in minerals, and there is a perfect microclimate, with warm days and cool mornings and evenings that receive the sea breeze and protect the vineyard from the cold, creating the ideal environment for grape growth and development.

Vena Cava is the main vein that leads to the heart. For our Winemaker, wine symbolizes blood.
